#### INSTRUCTIONS FOR SPEAKERS

We would like to call the attention of oral presenters to the following items:

- Be at the room of your session 15 minutes before it begins, so that you can meet your session chairs and the other speakers in advance.
- Please download the CV form (located on the conference's site), fill it in and hand it to the session chair before the session begins. In case you have not done this in advance, please ask for a CV form at the secretariat during the conference.
- It is most important to be within strict time constraints to allow the presentations to fit within the allotted time periods. Each paper has a time slot of 20 minutes, 17 of which for the presentation, and the remaining 3 for questions and discussion. The session chairman will rigorously enforce these time limits.
- Video projectors, as well as laptops, will be available in all conference rooms. Other equipment, if available, will be provided at your expenses if your request it.
- Presenters may use their own laptops. Laptops available at the rooms run WindowsXP operating system, and have PowerPoint Office XP installed. If this option is selected, presenters should bring their compatible presentation files stored in a CD- ROM or a 3.5" disk. In both cases, presenters are requested to test the functionality of the presentation before the beginning of the session.
